Height at maturity: 2’–5’
Length of stand: 1 cut
Reproduces by: Seed

FORMULATION

70% Winter Triticale
30% Feast II Tetraploid Short Rotation Ryegrass

Inject a forage crop without
disrupting your corn/soybean
rotation.

Enduro-Plus consists of only the best forage varieties available. All varieties in the Enduro-Plus product line have been developed and tested for forage quality, yield, and persistence. These products have been designed to give you higher relative feed values, which translates into more milk per acre, more beef per acre, or more energy for horses.
